Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Tabor College makes significant use of schools and school personnel in both rural and urban schools. Students are required to complete field experiences in both settings. Tabor College is a member of Kansas Independent College Association (KICA) which is a consortium that provides an added endorsement in Special Education. Because this is an added endorsement candidates must have completed a licensure program in another content area which ensures competence in core academic subjects. All general education candidates enroll in at least one course which provides training in working with special needs students as well as a field experience in a special education classroom. Tabor College is located in rural Kansas. All candidates are provided with field experiences in both rural and urban schools. An Intercultural Communications course is required of all education students. Tabor College also prepares teacher candidates according to dyslexia reading standards (i.e. Methods of Teaching Reading, and Reading Diagnosis, etc.) especially in evidence practices within the Science of Reading that is helpful to vulnerable populations as mentioned above.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

Association of Christian Schools International (ACSI)

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

TECHNOLOGY - ED224 Technology in the Pre-K-12 Classroom has been modified to include a greater focus on software use and implementation as a means to promote student learning. - The ED224 course focuses entirely on software and applications that can be integrated into the classroom. ED224 is a professional education course required of all candidates. - EPP faculty model technology in a myriad of ways; while the following list is not exhaustive because instructors are continually seeking improved methods of teaching via technology, it provides an overview of use at the present time. Instructors employ the following: PowerPoint, Zoom, Blogs, YouTube, QR Codes, Online Quizzes, Clickers, Web Quests, Online Storage, LiveBinder, Google Classroom, Edtopia, Videos, Social Media, Literature searches, Air Play, Google Drive, My Tabor, email and text. - Candidates demonstrate proficiency in software use through a variety of ways: lesson planning, microteaching, reaction and reflection, research, implementation of Bloom's Taxonomy in lesson planning, and student teaching evaluations. The Tabor College lesson plan template, includes a "technology" component that students must address as they write lesson plans. Similarly, the microteach rubric has a line item for the use of technology by the candidate and the learners. Lastly, the EPP graduates must successfully complete the KPTP work, which requires the integration of technology into their lesson plans. This task requires candidates to demonstrate how technology is utilized by both the candidate and the learners to affect learning. This list is not exhaustive because candidates are encouraged to seek improved methods of utilizing technology continually.

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All candidates are required to take a course, Exceptional Learners, which requires a 12 hour field experience in a special education setting.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Many candidates participate as a team member of an IEP meeting while in clinical experience. Elementary majors take a course on adapting instruction for adaptive learning needs. In clinical experience, candidates are expected to teach all students. Secondary students are taught methods of adapting assessments and reading materials to the needs of their students who need various forms of adaptations. All students are introduced to a multi-tiered system of support as adopted by the the State of Kansas throughout their program of study that meshes assessment with different levels of intervention.

c. Effectively teach students who are limited English proficient.

An ESOL minor is offered for all education students.

2. Does your program prepare special education teachers?

 Yes

 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

In Kansas, Special Education is an added endorsement which requires candidates to have a teaching license. Tabor College prepares special education teachers to teach students with disabilities effectively through the Kansas Independent Colleges Association (KICA). KICA is a consortium of the six area member colleges of Bethany College at Lindsborg, Bethel College at North Newton, Kansas Wesleyan University at Salina, McPherson College at McPherson, Sterling College at Sterling, and Tabor College at Hillsboro. Undergraduate and post-baccalaureate students are enrolled in one of the member colleges to pursue endorsement in adaptive special education at the K-6 and/or the 6-12 levels, and KICA provides the undergraduate endorsement coursework that includes field experience for three of the four courses. KICA has developed an assessment system that is aligned with its conceptual framework, Kansas Adaptive Special Education Standards, and national standards for teacher accreditation. KICA has a fully accredited program. The assessment system includes content-based assessment (Praxis II), assessment of the candidate's ability to plan instruction, assessment of clinical experience, assessment of candidate's effect on student learn, philosophical/historical/legal foundations, assessment, and managing behavior/problem-solving/social skills. KICA students consistently meet or exceed standards. Students unable to meet standards are not formally accepted into the KICA Adaptive Special Education Program, which is required before clinical experience (student teaching). Cooperating teachers rank KICA students as proficient or distinguished on final assessment conference reports.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

KICA prepares special education teachers to participate as a member of individualized education program (IEP) teams. Coursework assignments include observation of an IEP and IEP team meeting, IEP videos/simulations, lecture captures on IEPs, planning of an IEP based on a case study, and preparation of an IEP during student teaching (clinical experience).

c. Effectively teach students who are limited English proficient.

KICA prepares special education teachers to work effectively with diversity, including limited English proficiency. Coursework includes diversity interviews, diversity issues in assessment, diversity reference materials, lecture captures on diversity, reading programs for limited English proficient learners, and an oral exam with diversity questions.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Anecdotal information that continuously comes back from the field and from our Teacher Education Advisory Committee (made up of administration from many different schools districts in the area) consistently confirms the quality of teachers that matriculate from Tabor and from the other KICA affiliated colleges. During the recent years of financial shortages which created a tough market for teachers to find jobs, we continued to have 100% of our program completers find the kind of teaching jobs that they sought. Though we have no post-graduate programs in education it is not unusual for students to complete an educational studies major or a content major and then come back to complete their licensure program after graduation. It is also not unusual for us to have students come to Tabor as non-traditional students in order to seek to meet licensure requirements. These students are required to complete the same requirements as our undergraduates since we have no special post-graduate programs.
